About Me

Software Developer with knowledge of Core Java, SQL, HTML, CSS, JavaScript, Spring Boot, REST APIs and Web Services. Passionate about building scalable applications and solving real-world problems through technology.

Leadership Skills

- IE(I) Student President – PACRR Polytechnic College
- Team Leader – PALS Thinkathon at M.A.M. College
- Lead – Winning Team at IIT Madras Residential Workshop
- Best Student – Supraja Hackathon; Selected for Internship
- Team Leader – Smart India Hackathon (SIH)

Courses

- Testing of Industrial Sensors (DOTE)
- IoT (NPTEL)
- Diploma in Computer Applications
- Design Thinking and Community-Based Design

Industrial Visits

- Padmavahini Transformers (Coimbatore)
- Salzer Electronics (Coimbatore)
- Doddabetta Tea Factory(Ooty)
- Pykara Micro Hydro Power Plant (Nilgiris)

Soft Skills

- Team Collaboration
- Analytical Thinking
- Problem-Solving
- Project Management
- Time Management

Education

- Diploma in Electrical and Electronics Engineering 83.82%
P.A.C.Ramasamy Raja Polytechnic college
Nov 2020 - May 2023
- Pursuing B.E. in Electrical and Electronics Engineering 7.28 CGPA
Ramco institute of technology
Sep 2023 - May 2026

Internship Experiences

- Implant-Trainee** May 2023
Ramco Cements (Ariyalur)
Completed a 7-day internship with hands-on experience in electrical maintenance, troubleshooting, and industrial automation systems.
- Implant-Trainee** Aug 2024
Vishnu Shankar Mills Pvt. Ltd. (Rajapalayam)
Completed a 7-day internship with practical exposure to motor troubleshooting, electrical maintenance, and control panel operations in an industrial setup.
- INTERN** Jan 2025
Autoprints Pvt. Ltd. (Coimbatore)
Worked on installation, maintenance, and troubleshooting of electrical systems in offset printing machines, gaining experience in industrial automation and system integration.
- INTERN** May 2025 – Sep 2025
Pantech EDU (Remote)
Gained hands-on experience in embedded system design, PCB layout, embedded C programming with ARM Cortex, and circuit-level hardware-software integration.
- INTERN** June 2025-Sep 2025
Supraja Technologies
Selected for internship in cybersecurity focusing on network security, threat analysis, vulnerability assessment, and practical use of cybersecurity tools.

Technical Skills

- Embedded Systems: Embedded C, ARM Cortex, ESP32, STM32, PCB Designing
- Programming Languages: C, Java, Python (Basics), SQL
- Java Technologies: JDBC, Servlets, Spring Boot, Hibernate, REST APIs
- Protocols & Interfaces: UART, SPI, I2C
- Simulation & Tools: Multisim, NI ELVIS Kit, Digi-Sol Kit
- Software & Platforms: Git, Postman, AutoCAD Electrical, Power BI, MS Office
- Software Engineering: Object-Oriented Programming (OOP), SDLC
- AI & Cybersecurity: Claude AI, Generative AI, Prompt Engineering, Vulnerability Testing
- Other Skills: Troubleshooting, Circuit Analysis, Testing

Achievements

- Finalist – Circuitrix 2022, AAA College of Engineering
- Selected – PALS Thinkathon 2023 & IIT Madras Workshop
- Winner – IIT Madras Residential Innovation Program
- Best Student Award – Supraja Hackathon 2024

Courses (Ongoing)

- Object Oriented Programming in Java
- DBMS (Database Management Systems)
- React JS
- JavaScript
- DSA Problem Solving using Java

Areas of Interest

- Embedded Design
- Circuit Simulations
- Automation (PLC/SCADA)
- Software & Web Development
- System Testing and Debugging

Major Projects

- Expense Tracker
- Student Management Portal
- Employee Management System

Mini project

- Student Result Management System
- Movie Ticket Booking System
- Inventory Management System
